Education

Maulana Abul Kalam Azad University of Technology — West Bengal, India
B.Tech, Computer Science and Engineering GPA: 9.1 — June 2024 – Present

DAV Model School, Durgapur — Durgapur, India
Senior Secondary (85%) — May 2021 – May 2023

Experience

Independent Software Engineer – Inventory & Order Management System — Live | GitHub

- Designed and deployed a production-grade inventory and order management system for a real hardware business using Django, PostgreSQL, Docker, and Google Cloud Run.
- Gathered evolving client requirements and redesigned the architecture multiple times, introducing role-based access control, approval workflows, and inventory management features.
- Built an automated CI/CD pipeline with GitHub Actions, Docker, and Cloud Run, including automated testing, database migrations, and production deployment.
- Implemented automated PostgreSQL backups, structured request/query logging, and resolved production issues involving IAM permissions, hostname validation, and application logging.

Projects

DevVault – React, Node.js, Express, PostgreSQL — GitHub

- Engineered a full-stack portfolio platform featuring Google OAuth authentication, JWT session management, and PostgreSQL-backed user profiles.
- Implemented responsive project showcasing, technology tagging, inline profile editing, and RESTful backend APIs.

Autonomous Vision System for ISRO Robotics Challenge (IRoC-U 2026)

- Developed the onboard computer vision pipeline for autonomous aerial target detection and coordinate estimation in GPS-denied environments.
- Built a synthetic data generation workflow and trained lightweight YOLOv8 models, contributing to the team's Top 74 nationwide finish.

Technical Skills

Languages: Python, C++, JavaScript, SQL
Frameworks: Django, React, Node.js, Express, FastAPI
Databases: PostgreSQL
Cloud/DevOps: Docker, GitHub Actions, Google Cloud Run, Neon, Git
ML: YOLOv8, OpenCV, TensorFlow, Scikit-learn

Achievements

ISRO Robotics Challenge 2026 (IRoC-U 2026) — Top 74 Teams Nationwide

- Advanced from approximately 1500 participating teams to the Top 74 in India after successfully completing the Preliminary and Qualification rounds of ISRO's national robotics challenge.

BurnBrain Hackathon 2025 – NIT Durgapur — Top 15 / 100+ Teams

- Developed a web platform for JEE aspirants featuring personalized dashboards, analytics, custom test generation, and AI-based recommendations using Gemini API.

Certifications

The Complete Full-Stack Web Development Bootcamp – Dr. Angela Yu — Certificate Link
